EXPERIENCE

Intern at
INDORE MUNCIPLE CORPORATION (IT DEPARTMENT) Certificate [\[Link\]](#) July 2023 – October 2023

Description :

- worked as Mern stack developer and implemented a **Lucky Draw Website**. Which significantly Reduced the time of generating 105 winners from a database of nearly 2 lakhs enteries.
- Our website replaced the traditional excel system for generating winners.

Intern at
SALESQUEEN SOFTWARE SOLUTION,CHENNAI Certificate [\[Link\]](#) May 2024 – July 2024

Description :

- worked as **Frontend Developer** and was responsible for developing and maintaining **user and admin panel**.

PERSONAL PROJECTS

STUDENTS COMMUNITY [\[Link\]](#)

- **Description** : Developed a dynamic tech community where individuals from diverse backgrounds can learn, share, and grow together. Our unique marketplace promotes sustainability by enabling members to buy and sell old tech products.
- **Technologies used** : Reactjs for frontend, Nodejs and Expressjs for server side logic, MongoDB as database, Github for version control, Vercel for deployment.

“text-gradients” (npm package) [\[Link\]](#)

Description : I developed and published an npm package called 'text-gradients,' a versatile React component that allows developers to easily apply stunning color gradients and images to text elements without writing any css.

Ecommerce Website. [\[Link\]](#)

- **Description** : Developed a feature rich Ecommerce Website with features like login, register, searching products, add Products to cart, filters according to price and category.
- **Technologies used** : Reactjs for frontend, Nodejs and Expressjs for server side logic, MongoDB as database, Github for version control, Render for deployment.

Portfolio Website Using React js. [\[Link\]](#)

Description : I developed my portfolio website using React.js, ensuring consistent performance across all devices with Docker. Also set up a CI/CD pipeline with GitHub Actions to streamline deployment and updates.
